

La gama de perfiles **Syma** presenta diversos modelos de tirador con una amplia variedad de acabados, además de terminales metálicos que aportan una tacto suave en los extremos. Una propuesta perfecta para lograr puertas y frentes de cajón en multitud de estilos, texturas y colores.

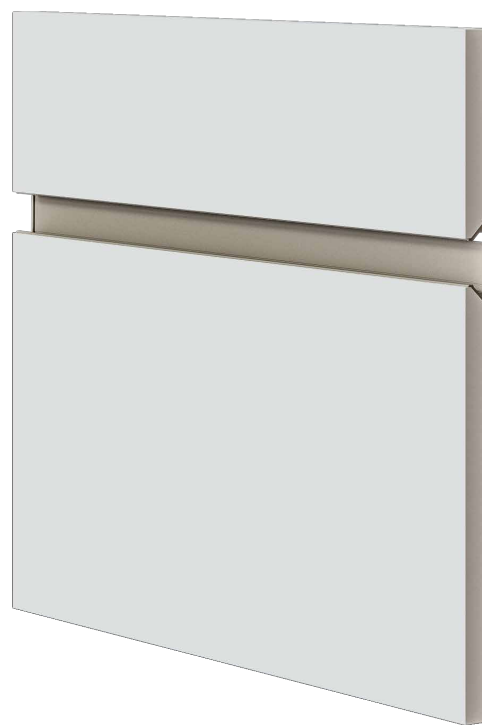

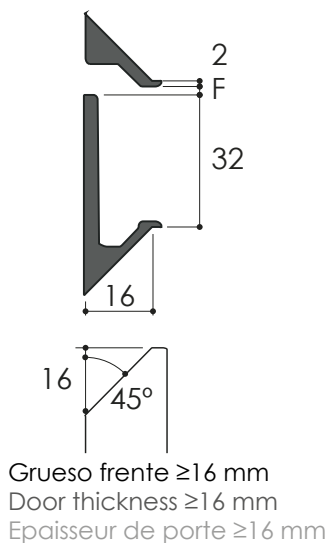

La combinación de **Syma32inglete** con su complementario **Syma2inglete** simula un estilo gola, permitiendo una apertura independiente entre el frente superior e inferior. Además, su instalación en vertical es ideal para closets.

The range of **Syma** profiles presents diverse models of handle with a wide variety of finishes as well as metal end caps that provide a soft touch at the ends. A perfect proposal to achieve doors and drawer fronts in many styles, textures and colors.

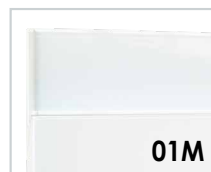

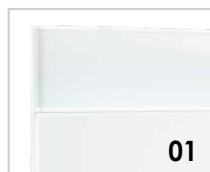

The combination of **Syma32inglete** with its complementary **Syma2inglete** simulates a gola style allowing an independent opening between the upper and lower front. Besides, its vertical installation is ideal for placards.

La gamme de profils **Syma** présente différents modèles des poignées avec une ample variété de finitions, en plus de terminaux métalliques qui offrent une touche douce aux extrêmes. Une proposition parfaite pour réussir des portes et des façades de tiroirs dans de nombreux styles, textures et couleurs.

La combinaison de **Syma32inglete** avec sa complémentaire **Syma2inglete** simule un style gola, permettant une ouverture indépendante entre le front supérieur et l'inférieur. En plus, son installation verticale est idéale pour placards.

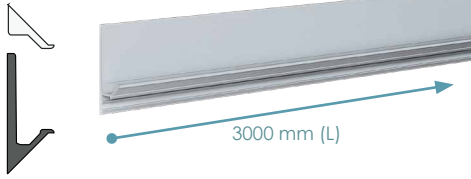

| acabados | finishes | finitions

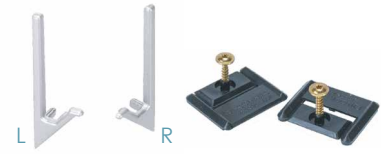

A | perfil + terminales + clips | profile + end caps + clips | profil + set d'embouys+ clips
